Hi Julie,

My apologies for not replying to notify you on the OFR's decision regarding your email request. Stephanie Morris was on leave and I was given this assignment. The OFR has agreed to make your changes. Attached is the change request memo.

Thank you,
Diedra Wingate

Hello, Diedra,

You still have time to make alterations to the document, but you'll need to submit an official correction request on agency letterhead.

Provide the information below, and we'll double check the page numbers/insert dates.

You can fax or email a PDF file of the signed letter.

Regards,

Stacey

Hi Stacey,

Per my voice message, this is the doc. number assigned by OFR: 2014-12164. Stephanie Morris received this (see, below) email, but she is on leave today. The information that I have says it is scheduled to publish on 8/15/14. There are several places throughout it that need dates added, however, I don't think that I have the latest version of this file, based on the sender of the, below, email.

Please give me a call to discuss whether these date changes can be made in time to keep the 8/15 publication date?

Subject: RE: National Pollutant Discharge Elimination System-Cooling Water Intake Structures at Existing Facilities and Phase I Facilities; Requirements -- EDITS FOR REVIEW
Importance: High

Hi Stephanie,

I was working on some training materials related to the 316(b) rule, and calculated these fill-in dates myself, and I went back to our emails just to double-check the dates. Except that I realized they are not consistent, and there's an error in what I previously OK'd. So this is definitely my mistake. I hope since the rule doesn't publish till August 15th that it is not too late to fix these dates.

The places in the rule where we used instructions that say 45 months after effective date of the rule, should really be 45 months after 60 days after the date of publication in the FR, not 45 months after publication date. By my calculations, that is **July 14, 2018** and not May 15, 2018.

Just to be absolutely certain about these dates, the following are all the instances where we had FR instructions to fill in dates, and what I think they should be (I'm using the "2014-12164-WORK_smEdits7-21-2014+OW errors memo7-18-2014.Monday morning.docx" file to note page numbers):

- The effective date of the rule is October 14, 2014, and this date is inserted a total of 18 times: pp. 2, 90, 206, 248, 494, 512, 525, 531, 533 twice, 537 twice, 545, 554, 555 twice, 559, and 560.
- The plus 45 months date of the rule is July 14, 2018, and this date is inserted a total of 12 times: pp. 244, 248, 249 twice, 251, 290 twice, 544 twice, 553, 554, and 558.
- There is one instance of a date 14 days after publication, which is August 29, 2014, on p. 2.
- Finally, there is one instance of a date 5 years after the effective date of the rule, which is October 14, 2019 (p. 524).

I'm sorry – I was at a retreat when we corresponded about these dates, and I didn't really focus on the question. Let me know if there's anything else I can do to help fix this.

Thanks

Julie
